From: ac5am@juno.com (Robert L Stolzle)

Subject: FS: Drake TR4

Hello Glowbugs,

I have a Drake TR4 with AC4 and MS4 for sale.

This rig is very clean and works good. New finals.
I have had it loaded up to 130 watts output and will
probably put out as rated. I don't notice any drift
after warm-up. Very sensitive receiver. Main tuning
drive very smooth and in good condition.

Asking \$275 and will split shipping costs with buyer.

If you need more info please e-mail me direct --
ac5am@juno.com

Bob, AC5AM

If no thunderstorms in area I will be on 7050 or 7060 Khz
on 6/24/97 around 2300z and 0000z with the TR4.

From: EWoodman@aol.com

Subject: T20 Substitute

I have a transmitter circuit that uses a 6L6 oscillator driving a T20 final
at about 50 watts input. The description says an 801A or similar will sub for
the T20. I don't happen to have data on the T20 or 801A. Can anyone give me

the basic data on it or maybe any other tubes that would be similar?

Thanks,
Eric K1YRV

Subject: AM Nets.

Hello all.... Can someone please tell me of any AM nets or Freqs/and times ??? I'll try and pick up a Mic. for my DX-40 next swap-meet or keep an eye opened on the lists..... Thanks....
